

# Leica Geosystems Licence Activation Guide

## Licence Activation for TPS1200

### Dear valued customer...

Thank you for purchasing a licence for our product. The following instructions will guide you through the licence activation process.

- 👉 Please register your product at [myWorld.leica-geosystems.com](http://myWorld.leica-geosystems.com), our internet platform for our customers. myWorld provides 24/7 access to all information you require to actively manage your equipment. Here, detailed information on individual products and their service history can be found. The information also aids in maintaining the product value while at the same time enabling maximum efficiency and productivity.

### Activate licence

- 👉 The procedure is valid for any licence key.

Step	Description		
👉	You can download licence keys from myWorld. Refer to "Download licence".		
👉	To upload a licence key, store the licence key file (for example L_2500123.key) in the \SYSTEM directory of the data storage device. Insert the data storage device into your product.		
1.	Go to <b>Tools...\Licence Keys</b> .		
2.	<table border="1"><tr><td>To type in a licence key: Select <b>Method: Manual Entry of Key</b> <b>Key:</b> Type in the licence key. Click <b>CONT</b>. The licence is activated and can be used.</td><td>To upload a licence key: Select <b>Method: Upload Key File</b></td></tr></table>	To type in a licence key: Select <b>Method: Manual Entry of Key</b> <b>Key:</b> Type in the licence key. Click <b>CONT</b> . The licence is activated and can be used.	To upload a licence key: Select <b>Method: Upload Key File</b>
To type in a licence key: Select <b>Method: Manual Entry of Key</b> <b>Key:</b> Type in the licence key. Click <b>CONT</b> . The licence is activated and can be used.	To upload a licence key: Select <b>Method: Upload Key File</b>		
👉	If an application licence was activated and the application is not loaded on the product yet refer to "Download application" and "Upload application".		
👉	If a software maintenance licence was activated refer to "Update software" to update the software on the product.
